

Fruits of Galilee

Organizational Biography

Fruits of Galilee is a product line of the Beth El Community, a group of Christians originally from Europe and North America now living in northern Israel. The Beth El Community residents live among their Jewish friends and neighbors, basing their lives on the Bible and their calling to be a blessing to Israel and her people.

Fruits of Galilee preserves and marmalades are made from the finest fruit from the Holy Land, harvested at the peak of flavor from the mountains and valleys of Galilee, Carmel, Judea, and the beautiful plains of Sharon. These jams and marmalades are prepared, using time honored and traditional family recipes, and only the finest spices and natural flavors.

With a distribution of over 1.5 million jars annually, the community provides jobs to Israeli citizens in areas with high unemployment rates, providing individuals with better opportunities to support themselves and their families. The organization also donates a portion of its proceeds to Global Orphan Relief, a nonprofit organization that serves needy orphans around the world.
